

NATURE'S SECRET TO

A Brighter Smile

GIVE YOURSELF SOMETHING TO SMILE ABOUT!

At ORALGEN, we want you to smile often, and with confidence. Sadly, many people hide their smiles because of discoloration.

Professional whitening can be inconvenient, timely, and expensive, while some at-home treatments are messy and don't always provide the results you'd expect from your dentist.

ORALGEN NuPearl® Advanced Teeth Whitening range was developed to create the best and brightest smiles with health and wellness in mind. Everyone wants to feel like they can show off their pearly whites, but not everyone is interested in the harsh chemicals and preservatives used by other oral care brands, or the pain and sensitivity associated with professional whitening treatments.

That's why our products are formulated using pure, quality ingredients that are gentle, yet potent. All products are non-GMO and developed without latex, parabens, sulfates, sodium fluoride, or PEG/PPG.

We're dedicated to delivering high quality, effective and easy-to-use whitening treatments to ensure our customers are satisfied with their results.

*Smile Brightly & Smile Often
with ORALGEN.*

7-DAY NATURE-FRIENDLY TEETH WHITENING REGIMEN

- 1 Brush and polish your teeth with NuPearl® Activated Charcoal Toothpaste. Rinse.
- 2 Apply a thin line of NuPearl® whitening gel to our flexible whitening tray, on both upper and lower arches where teeth are most visible.
- 3 Turn on the NuBright™ LED brightening light and wear for 20 minutes. Rinse and smile with confidence! Maintain your brighter smile with our Perfecting Whitening Pen.

ORALGEN NUPEARL® ACTIVATED CHARCOAL TOOTHPASTE

ACTIVATE YOUR SMILE WITH ACTIVATED CHARCOAL!

What is Activated Charcoal?

Activated charcoal is one of nature's best-kept beauty secrets. It has been used for years with a variety of benefits, but especially as a natural polish to achieve a brighter smile and fresher breath! Activated charcoal safely cleanses and polishes teeth to gently remove stains for a naturally whiter-looking smile.

Why Coconut Oil?

Almost 50% of coconut oil is made up of lauric acid which is known to kill harmful mouth bacteria which can lead to bad breath, tooth decay and gum disease.

ORALGEN NUPEARL® COMPLETE WHITENING SYSTEM

Enjoy the benefits and quality of professional teeth whitening in the comfort of your own home. ORALGEN NuPearl® whitening systems use NuBright™ LED technology to produce visibly brighter teeth.

Target surface stains and deep seated discoloration caused by years of coffee or wine drinking or smoking with ORALGEN NuPearl® whitening systems, available in two presentations:

ORALGEN NuPearl® Pro Professional Strength

- Ultra pure 12% Hydrogen Peroxide
- Natural Peppermint essential oil

ORALGEN NuPearl® 32x For Sensitive Teeth

- 32% Sodium Bicarbonate
- Natural Peppermint essential oil

Each ORALGEN NuPearl® system includes: Two Syringes containing Teeth Whitening Gel, One Flexible whitening tray, One NuBright™ LED Brightening Light (with batteries), One handy shade guide, One storage container for tray and light and One Perfecting Whitening Pen with Nylon Brush Tip as an added BONUS!

• SAFE ON ENAMEL • FREE FROM HARSH INGREDIENTS • GENTLE ON TEETH
