

aquaderm SKRIN

contains

FOUR

ACTIVE INGREDIENTS

that work synergistically!

ANTICOAGULANT

Prevents blood from pooling and forming larger clots, reducing the size of bruises & hematomas.

ANTIOXIDANT

Neutralizes free radicals, which can damage tissue.

01

FUCOIDANS

ANTIINFLAMMATORY

Reduces swelling at the site of bruising and protects the skin from free radical damage.

ANALGESIC

Soothes aches and provides pain relief at the site of injury.

02

ARNICA

03

QUASSIA

POWERFUL ANTI INFLAMMATORY

Provides targeted relief to pain, swelling and inflammation that can arise at the site of bruising or hematomas, while also soothing & calming inflamed & irritated skin.

04

RUSCUS

VASOACTIVE

Constricts blood vessels & reduces vascular permeability to reduce the volume of blood leaking into the surrounding tissue. This, in turn, minimizes the size, prominence and discoloration of the bruises.

*Delivers Rapid Results
that quickly heals bruises and hematomas!*

Gently massage a small quantity of the cream to the affected area, until completely absorbed. Repeat up to three times daily, as needed.
